

# BeMed Community of Practice

Community Letter #3 - May 2024

For the first time, the Laureates' Day took place in Athens, to be closer to the members of the Community! The 2023 Laureates were joined by Greek members of the Community (and not only!).

## The report of the Day

On the programme for the day: a discussion on the difficulties and good practices associated with plastic pollution, training on storytelling, a visit from H.S.H. Prince Albert II of Monaco, and a tour of the Cultural Lab of [Network for Children's Right](#).

[Community overview](#)

The first group discussed the difficulties encountered in getting citizens involved over the long term, and the activities they have put in place to overcome them.

[Summary of discussions](#)

The 2nd group looked at two issues: the sustainability of the projects put in place, and highlighting the links between plastic pollution and health.

[Summary of discussions](#)

The 3rd group focused on establishing dialogue between the various stakeholders (public, private, etc.) to promote actions to combat plastic pollution.

## A very special guest!

The discussions of the three groups were condensed into three posters. These were presented to H.S.H. Prince Albert II of Monaco during his visit to Athens alongside the Monegasque delegation. The visit concluded a day rich in exchanges.

**Thank you all for coming! Thank you for your participation and for the work you do throughout the year!!** 🌊

# Next Rendez-Vous of the Community

The next Community Rendez-Vous will take place online and will focus on consumer awareness: successes and limitations!

If you would like to share your experience/expertise on this subject, please write to me at :
